BRITISH MADE
GAS STOVES

THE KIRKDALE - with optional flat or curved door

The Kirkdale is a natural gas stove which will look at home in a traditional or contemporary room. Made to suit either Class 1 or Class 2 flues, the flue outlet can be from the top (5″ diameter), or from the rectangular spigot at the rear for use in pre-cast flue blocks with the closure plate supplied. The Kirkdale is fitted with a thermal cut-out for your safety in down draft situations.

- Natural Gas
- Eco Design 2018 Ready
- Input 6.8kW
- Variable Heat Output up to 5.1kW
- 75% Efficient
- Suitable for a Class 1 or Class 2 flue
- (5″ diameter or pre-cast flue)

- Remote Control Option available
- Driftwood or Coal Effect
- Brushed Steel or Brass Handle
- Built in safety features including a Thermal cut-out
- British Made with British Steel
- Available in Matt Black or 9 Metallic Colour Finishes

THE WHITBY

The Whitby natural gas stove combines the appeal of a real fire with the control and convenience of gas, giving instant warmth from realistic coal or log effect fire. The large glass door gives a wonderful view of the new fuel bed. A very efficient stove with built in safety features including thermal cut-out. Although a larger stove, the input is 6.8kW, so there is normally no need for any extra air vent and gives an output of 5.1kW, giving an amazing 75% efficiency.

Our Gas Stoves are CE marked to EN 613: 2001 + A1:2003 + C1:2008

All Town and Country gas stoves are Eco Design compliant - Eco Design is a directive to improve the efficiency of stove / space heaters along with reducing NOx, Din Particulates, CO and Hydro Carbon emissions produced from a stove/domestic space heater.

Our gas stoves are designed and manufactured to meet the requirements of the Gas Appliance Regulation 2016/426.

Quality Management System to BS EN ISO 9001:2015

Town and Country Fires completely design and manufacture the Kirkdale and Whitby gas stoves in their factory in Pickering, North Yorkshire using high quality materials produced in the UK. Town and Country Fires are a family run company with over 130 years' experience within the stove industry and one of a few stove manufacturers that actually make stoves from start to finish.

Your local approved Town and Country agent will be able to advise on supply and installation of our gas stoves.
